

MOUNTAIN VRAN – The view of three lakes

Going from Jablanica through the picturesque canyon of river Doljanka, road seemingly leading to nowhere, upon the arrival to the saddle of Sovićka vrata suddenly transforms into a spectacular vedute of mountainous landscape. Plateau Dugo polje is bounded by the mountains Čvrsnica on the southeast and Vran on the northwest and it offers idyllic atmosphere of mountain resort, both in summer and winter. Since 1995, the plateau and surrounding mountains were incorporated into a Nature Park Blidinje. Shallow lake Blidinje is placed on the southwestern side of the

One of the path to Veliki Vran starts from the central point of Park of Nature Blidinje – motel „Hajdučke vrleti“ Starting point of the paths is immediately next to the motel and it leads through the mountain pine forest. Steep, but pleasant and well-marked, path offers plenty of sights such as carstic pits and the spring „Hajdučko vrilo“ which offers refreshment throughout the year. The crossroad

plateau, opposite to the Sovićka vrata saddle, with the peaks of surrounding mountains mirroring themselves on the surface. One of those peaks is Veliki Vran (2074 m.a.s.l.), the highest peak of Vran which forms western boundary of Dugo polje. Vran is not a typical Dinaric mountain. One of the facts to suggest this is the direction of the mountain which spreads from southwest - northeast. Ascent to Vran is particularly suitable for recreational hikers, whereas south and southeast allow passage through the richness of the karst landscape.

offering ways to both Veliki and Mali Vran is situated very close to the spring. Veliki and Mali Vran are linked with the mountain ridge at more than 2000 meters of altitude. The peak of Veliki Vran is marked with the pile of rocks, and as the reward for the successful ascent, the mountaineers have an opportunity to enjoy the fantastic view of three surrounding lakes: Ramsko, Buško and Blidinjsko.

Vran

Motel Hajdučke vrleti – Veliki Vran

**STAZA:** Motel Hajdučke vrleti – Veliki Vran (2074 mNv)  
**PLANINA:** Vran  
**STUPANJ TEŽINE:** Srednji  
**RIZIK OD MINA:** Nema duž markirane staze  
**VRIJEME DO VRHA:** 2,5 h  
**GPS KOORDINATE POLAZIŠTA:** N43° 39.195’; E17° 32.027’  
**VISINSKA RAZLIKA:** 870 m  
**GPS KOORDINATE VRHA:** N43° 40.089’; E17°30.336’  
**OPSKRBA VODOM:** izvor Hajducko vrilo 1,5 sati od Hajdučkih vrleti ( ¾ puta)  
**POTEŠKOĆE PRI ORIJENTACIJI:** Nema  
**UKUPNA DULJINA TREKA:** 4 km

**PATH:** Motel Hajdučke vrleti – Veliki Vran (2074 m.a.s.l.)  
**MOUNTAIN:** Vran  
**DIFFICULTY:** Medium  
**MINE RISK:** None along the marked route  
**DURATION:** 2,5 h  
**GPS START COORDINATES:** N43° 39.195’; E17° 32.027’  
**ALTITUDE DIFFERENCE:** 870 m  
**GPS PEAK COORDINATES:** N43° 40.089’; E17°30.336’  
**WATER SUPPLY:** spring „Hajducko vrilo“ 1,5 h from the motel  
**ORIENTATION DIFFICULTY:** None  
**TOTAL LENGTH:** 4 km

VRAN PLANINA - Pogled na tri jezera

Idući od Jablanice kroz slikoviti kanjon rječice Doljanke, put, koji naizgled vodi ka nigdje, se po dolasku na prijevaj Sovićka vrata, odjednom pretvara u spektakularnu vedutu planinskog pejzaža. Dugo polje omeđeno planinom Čvrsnicom sa jugoistočne i Vranom sa sjeverozapadne strane, pruža idilični ugođaj planinskog odmorišta, kako ljeti, tako i zimi. Od 1995. godine, područje visoravni s okolnim planinama je proglašeno parkom prirode. U jugozapadnom dijelu polja, suprotno od Sovićkih

vrata, nalazi se i plitko Blidinje jezero u kojem se ogledaju vrhovi obližnjih planina. Jedan od tih vrhova je i Veliki Vran (2074 mNv), najviša točka Vran planine koja čini zapadni obod Dugog polja. Vran planina nije tipična dinarska planina. To govori i njen smjer koji se, za razliku od većine ostalih planina dinarskog gorja, pruža u pravcu jugozapad - sjeveroistok. Uspom na Vran je posebno pogodan za rekreativce, jer južne i jugoistočne strane omogućuju prolazak kroz bogatstvo kraškog krajolika.

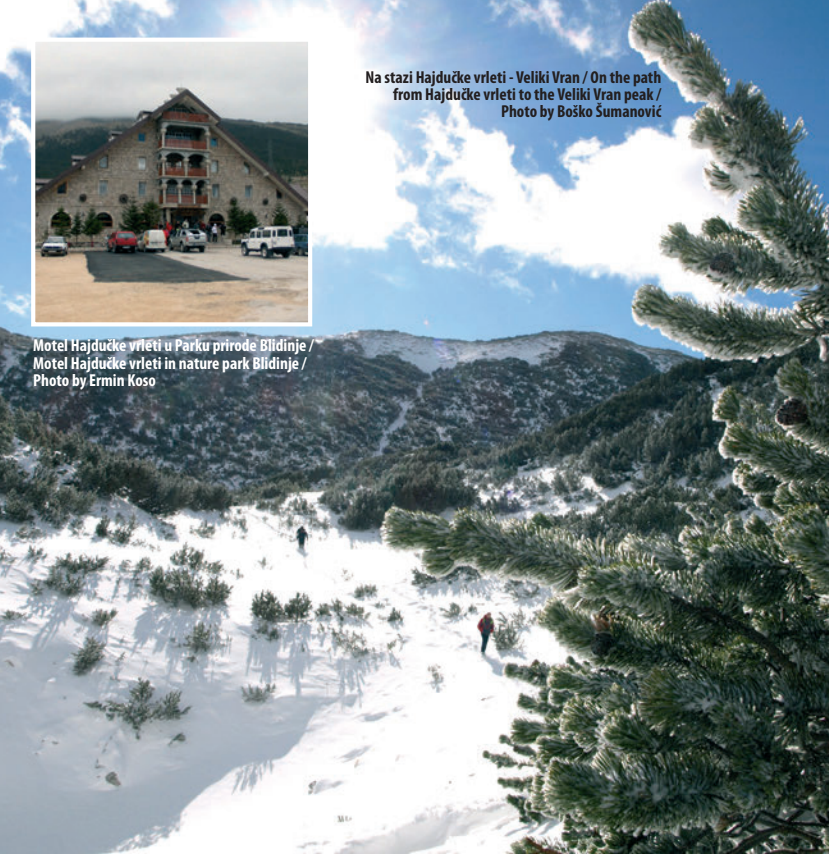

Jedna od staza prema Velikom Vranu polazi od središnje točke Parka prirode Blidinje – motela „Hajdučke vrleti“. Neposredno u blizini motela je početna točka uspona koji vodi prema šumi planinskog bora. Strma, ali ugodna i dobro markirana, staza pruža mnoštvo zanimljivosti poput kraških jama i nepresušnog izvora Hajdučko vrilo koje pruža okrepu tokom cijele godine. U neposrednoj

blizini vrela se nalazi raskrižje staza od kojih jedna vodi prema Malom Vranu, spojenog s Velikom Vranom planinskim hrptom višeg od 2000 metara. Vrh Veliki Vran je označen, a kao nagradu za uspješan uspon planinari dobivaju fantastičan pogled na tri okolna jezera: Ramsko, Buško i Blidinjsko.
